Emilsoft could not be what it is today without the man's efforts. ProfileBackup for Mozilla Firefox is a standalone tool. That is, it is a one-stop tool for Firefox users who wish to backup their current Firefox profile. This tool provides you with several different options to backup/restore your Firefox profile

### **Emilsoft FireBackup Full Version**

Emilsoft FireBackup is an advanced and powerful Firefox Profile Backup and Restoration utility. With FireBackup you have the ability to backup

---

and restore the entire profile directory of Firefox on your system. For each profile you backup, you also get a encrypted, safe file backup of all your bookmarks, cookies and browser preferences. Besides Firefox 1.0.5, this software also supports Firefox 1.0.6 and the most recent version of Mozilla Firefox (Beta 2 or Alpha 1). It's an excellent solution to restore Firefox settings after reinstalling Windows, when your old profile directory has been corrupted or the Firefox installation directory has become corrupt. Some of the key benefits of using FireBackup for Firefox Profile Backups include:

- Backups are completely safe
- Complete backups can be generated without extracting any files from the profile directories.
- Online Backup on our servers
- You get access to a file storage account that lets you back up your backups in the free online service offered by Emilsoft Forums, where you can also securely share a backup with other members of the forums.
- Support for offline backup
- Ability to backup your Firefox profile directly from the location where you normally store files, using the native Explorer Integration of FireBackup.

Here are some key features of "Emilsoft FireBackup":

- The Most Advanced Backup utility for Firefox.
- Ability to Backup Firefox Bookmarks, Cookies, and Browser Preferences.
- Free Online Backup feature with an Emilsoft Forums Account.
- Offline Mode to backup files to other storage media.
- Native 64-Bit Edition Under Development.

Requirements:

- Microsoft.NET Framework 1.1

Extensions Used:

- WinZip to compress Firefox profile backups

Licence:

- Free for personal/non-commercial use only

### **What's New in the?**

Emilsoft FireBackup is the most advanced Firefox profile backup and restoration software. With all your user configuration settings stored in a Backup File, you can rest assured that your browsing will remain exactly as you left it. If your computer is lost, stolen, or damaged, you can simply find your Backups and restore them to your computer, with no need to reinstall Windows. Emilsoft FireBackup can back up and restore Firefox, Internet Explorer (or Netscape), and IE 6 or Mozilla Firefox profiles. Emilsoft FireBackup is the only Firefox backup and restore solution that supports both online and offline backup/restore. Online backup means that your Firefox, IE, and IE 6 profiles are backed up to an Emilsoft Forums Storage Account. This feature will allow you to back up your Firefox profile to your online storage space for a safe and secure storage location. Offline

---

backup/restore allows you to save the file to another storage media such as a floppy disk or CD. Emilsoft FireBackup is the first product that has an in-built addon to automatically backup the Mozilla Firefox bookmarks. Emilsoft FireBackup will also restore and retain your bookmarks.
